

Product Data Sheet

5 Gallon Chemical Spill Kit in Bag

Item Number: SPKH-5G

Item Name: Chemical Spill Kit 5 gallon in bag

Absorbency: 5 Gallon/package

A Chemical spill kit is a collection of items to be used in the immediate response and clean-up of spills, leaks or other discharges of hazardous wastes. Spill kits should be maintained in close proximity to areas where Chemical drums are managed or stored to enable prompt response and clean-up of spills. Spills happen no matter how hard you try to avoid them. Forklifts knock over drums, tanks are punctured and transporters leak and drip. It is important to have the right sorbents on-hand when these spills occur to eliminate the slip-and-fall hazard. A quick response is the first order of business — and your best weapon — in the fight against spills. Spill Kits are packed with quality Products to help you clean up fast and comply with regulations.

Includes a variety of sorbents to handle spills of hazardous liquids; pre-packed in a carry bag. Self-contained Kit stores sorbent products for easy access as needed for spill control; saves time when quick response is necessary. Rust- and corrosion-free 100% nylon is durable to withstand rough handling. Easy-to-move Kit can be transported manually.
